

Delivering “Health” and “Tastiness” for the Future to the World

Ajinomoto Co.’s “foresight” and “pioneering spirit” have been continuously passed down since its inception. Such strengths have led our business to expand and extend beyond the development and sales of the umami seasoning *AJI-NO-MOTO*. Based on the pivotal areas of “Health” and “Tastiness,” the Ajinomoto Group is pursuing significant growth and broad expansion into fields ranging from production and sales of processed foods to amino acids and further to the pharmaceuticals field.
